## OASIS 3033

### Traditional Style Sliding Door

The best way to understand the Oasis is to understand the Glacier and Norwood, which can be found on pages 11-14. Below is a summary:

#### SIMILAR TO NORWOOD 3000

- Same glass panels (not the same perimeter frame).
- Same screen door.
- Same rollers and latching system.
- Available 12' tall.

#### SIMILAR TO GLACIER 3300

- Same perimeter frame (not the same glass panels).
- Same screen door.
- Same rollers and latching system.

#### Standard Features

- Clear or Dark Bronze Anodize
- 4-1/2" Nail-fin Frame & 1-7/8" Threshold
- 1" Clear IG & Bronze IG Spacer
- Archetype I Hardware:
  - Finish: Stainless Steel
  - Actuator @ 54" (Consult local code)
- Tandem 1-7/8" Rollers (Swiss Bearings)
- Screen Door, Hardware @ 40"
- Thermally Broken Perimeter Frame

#### Optional Features (see CAD Details online for more options)

- Custom Frame Colors (Anodized or Painted)
- Fast Track White Paint (2-Coat Kynar)
- Replicated Wood Grain (Nine Finishes)
- 4-1/2" Block Frame
- Archetype Hardware Options:
  - Custom Actuator Height (24", 36", 48")
  - Actuator Only (No Pull)
  - Finish: Black Paint
- Exterior Keyed Lock
- 3" Threshold
- Side Lite & Transom

## MOJAVE 3400

### Luxury Home Hinged Door (Interior/Non-Weather Rated)

Though not rated for exterior use, many architects utilize the Mojave because of its narrow and sleek lines.

#### UNIQUE FEATURES

- **Sleek & Linear:** In some applications, our customers are willing to trade the exceptional weather performance of the Pacific 3500 for thinner frame lines. Simple, linear extrusions provide an austere frame for the glass.
- **Simple Lever/Latch:** Ideal for applications where a simple door is needed, e.g. pool house, garage door, etc. A picture of the hardware is provided on page 18 and online in the *Products* section.

#### Standard Features

- Clear or Dark Bronze Anodize
- 4-1/2" Block Frame, 7/8" Threshold & Continuous Hinge
- 1" Clear IG & Bronze IG Spacer
- Lever, Deadbolt & Exterior Keyed Lock (see Products online for picture)
- Exterior Swing
- Non-Thermally Broken Extrusions

#### Optional Features (see CAD Details online for more options)

- Custom Frame Colors (Anodized or Painted)
- Fast Track White Paint (2-Coat Kynar)
- Replicated Wood Grain (Nine Finishes)
- Specialty Glass (1/4", 9/16" or 1") & Silver or Champagne Bronze IG Spacer
- 1/2" Threshold (No Performance)
- Side Lite & Transom
