

**EXTRAPOLATED QUALIFICATIONS**

FLEETWOOD MANUFACTURES THREE SLIDING DOOR PRODUCTS THAT USE THE SAME SUB-SILLPAN DESIGN. MOST OF THE TESTING WAS PERFORMED ON THE SERIES 3070-HI AND THE INFORMATION COLLECTED ALLOWED THE ENGINEERING DEPARTMENT TO CREATE THIS EXTENSIVE LIST OF WATER PERFORMANCE EXPECTATIONS.

**TEST REPORT LIMITATIONS**

LABORATORY TEST REPORTS ARE USED AS REFERENCE ONLY, SINCE THE TEST SPECIMEN IS NEVER ORDERED VERBATIM. ENGINEERING USED THE TESTING DATA TO EXTRAPOLATE REASONABLE PERFORMANCE EXPECTATIONS OF A NUMBER OF CONFIGURATIONS AND STACKING ORIENTATIONS.

**REASONABLE EXPECTATIONS**

FLEETWOOD VERIFIES THE EXTRAPOLATED WATER PERFORMANCES (NOTED BELOW) WERE DERIVED SCIENTIFICALLY. CUSTOMERS CAN EXPECT SUCH PERFORMANCE IN A LABORATORY, BUT NOT IN THE FIELD. AAMA STATES THAT FIELD CONDITIONS MUST EXPECT 2/3 THAT OF A LABORATORY PERFORMANCE. CUSTOMERS THEREFORE SHOULD FACTOR THIS MITIGATING VALUE INTO THE FINAL PRODUCT CHOICE.

**SUPPORTING DOCUMENTS** (CLICK ON THE TEST REPORT FOR FURTHER DETAILS)

**SERIES    TEST REPORT NUMBER**

3070	T12-004 ; T12-004-1
